## Radio Guest Information Sheet for Doug Kelley, PhD, CH, CSL

### Contact Information

**Contact:** Doug Kelley  
**Email:** [dkelley@paranexus.org](mailto:dkelley@paranexus.org)  
**Phone:** 941.740.2900  
**Skype:** paranexus (Preferred)  
**Website:** [www.ParaNexus.org](http://www.ParaNexus.org)  
**Location:** Florida, USA  
**Time Zone:** Eastern

### Bio/Photo

#### **Doug Kelley, PhD, CH, CSL**

Doug Kelley is the founder and director of ParaNexus, and the host of Metaphysical Universe radio. He is also the founder of the Metaphysical Church of Humanistic Science and the Institute of Metaphysical Humanistic Science. Dr. Kelley's greatest area of interest and research in the field of anomalous research is the impact of such phenomena on the human condition including the role that a person's unique socio-religious and cultural beliefs have on the type and extent of any paranormal activity experienced. Dr. Kelley blends this anthropological approach with an open mind, a make-it-happen attitude, and a deep belief in the indomitable power of the human spirit. He is an outspoken advocate for the need of education in the field as well as remaining objective and grounded regarding evidence of anomalous phenomena. Dr. Kelley has a non-secular PhD in

Metaphysical Humanistic Science, is a Certified Hypnotist, a Certified Seminar Leader, an accomplished professional speaker, trainer, life coach, ordained metaphysical minister, and author of eight published books and numerous courses in the fields of anomalous research, human development, leadership, metaphysics, and relationships. Doug resides in southwest Florida along with his wife, Tracy, and their three cats. He has spoken to many groups in the paranormal field, has appeared on several radio programs, and is available for media interviews, paranormal talk shows, documentaries, and speaking to groups about related topics. He can be contacted via [www.ParaNexus.org](http://www.ParaNexus.org).

### Program Topics

**Topic Title:** *Anomalous Research 2.0 — A Para-Anthropological Approach*

(Alternate Title if Desired: *Bringing the Paranormal Back Down to Earth*)

**Topic Description:** ParaNexus founder and director, Dr. Doug Kelley, discusses the need for an enhanced approach to anomalous research and investigations. Among the topics explored is the impact of belief on paranormal phenomena, the psychology of anomalous activity, the new mission of the anomalous researcher, why photos and video are almost worthless as evidence, why cross training is essential, common denominators of anomalous phenomena, and much more. This thought-provoking information will help those in the anomalous research community to conduct more effective and grounded investigations and maintain a higher level of credibility.

## Program Topics Continued

**Topic Title:** *Responsible Research: Separating Paranormal Fact from Fiction*

**Topic Description:** ParaNexus founder and director, Dr. Doug Kelley, discusses a number of popular myths in the anomalous research field ranging from orbs to demons to abductions. Are Ouija Boards bad? Can ghosts hurt you or follow you home? Do demons exist? Are millions of people being abducted by aliens? Should hypnosis be used to help recall suppressed memories? Doug explores these and other beliefs in a logical, reasonable manner and emphasizes the need for an objective mind and a responsible, grounded approach to anomalous research.
